

ANALYST IN MERGERS & ACQUISITIONS / STRATEGIC GROWTH ADVISORY

If you are a first rate, highly-motivated and bi-/multilingual graduate seeking an M&A Analyst position in which you will have the opportunity to work "hands-on" with clients and partners, Delphi Advisors might just be the company you are looking for.

Delphi Advisors, located in Frankfurt am Main, Germany provides a comprehensive service offering:

- M&A and strategic advisory to domestic and international clients, including Fortune 500 enterprises, PE and institutional investors
- Specialization in pan-European and transatlantic cross-border mandates, in sectors including capital goods, engineered services, automotive, logistics, technology and IT

Your responsibilities:

- Full integration into the team to directly work with and support clients in live M&A transactions and strategy projects, across all stages of the process
- Preparation of market, company and competitor analyses
- Research and identification of potential targets or buyers
- Preparation of process documentation
- Preparation of company valuations
- Support in due diligence
- Presentations for ongoing mandates and business development projects

We offer:

- A career and exciting challenges in M&A and strategic growth advisory
- The opportunity to contribute across all stages of global strategic projects
- A young, success-oriented team with flat hierarchies
- Own responsibilities and independent work within projects & attractive work-life balance
- The opportunity is available at the earliest possible starting date (exact starting date is flexible)

Your qualifications:

- First-rate degree from a leading business school or university preferably with a focus area of accounting & finance / M&A / business administration
- First practical experiences in advisory, investment banking, M&A, PE, corporate finance or a related field (e.g. banking, audit, controlling) with excellent references
- Business fluent German & English, additional language proficiencies are welcome
- High proficiency in MS Office applications
- You think analytically, enjoy problem-solving with „out of the box“ solutions and maintain strong communication skills

Please forward your application incl. CV and relevant transcripts via email to:
